OUR VISION

Being the world's premier biopharmaceutical company by providing what is essential to human progress in the life science industry.

About Us

Feldan is one of the world's leading manufacturers of research and therapeutic proteins. We are also a global driving force in the discovery and development of breakthrough and innovative science-driven solutions to treat serious or life-threatening diseases. Our strength lies in the powerful synergy of our people, our solutions, our technologies and our commitment to being the best.

Our Mission

Feldan Discovers, Develops, Manufactures and Markets Innovative science-driven biopharmaceutical solutions that meet the demands of the Research and Therapeutic Protein industries.

Our Commitment

Consistent business excellence, day after day by committing ourselves to high standards of integrity in contributing to the best interests of our customers, our employees and our communities, and by seeking significant returns for our stockholders, based on the continual pursuit of scientific and operational excellence.

WE ARE FOCUSED ON BEING THE BEST

Being the best is a journey, not a destination. Day after day we aim to be the leaders in everything we do. Our value-based management culture provides a rigorous, accountability-based process for identifying and seizing opportunities to create value across its many dimensions. This continuous improvement helps us offer more and use less as we apply this disciplined approach to improve every aspect of our business.

WE ARE

INNOVATION DRIVEN

Feldan constantly thrives to learn and seek out the insights and tools we need to stay at the leading edge of our industry. Our company has built enduring capacities for breakthrough innovations and has found ways to circumvent the years, if not decades, it can take to move from discovery to commercialization of a new technology. We have also developed reliable and innovative operating systems to manage the associated risks and continuously enhance our ability to solve the complex scientific and business process problems that would otherwise place limits on our ability to envisage, and then create sustainable value for the next generation in our industry, a key indicator of corporate sustainability.

Please visit our website to locate Feldan's Worldwide offices
or to view our complete list of products.
