OUR VISION

Being the world's premier biopharmaceutical company by providing what is essential to human progress in the life science industry.

About Us

Feldan is one of the world's leading manufacturers of research and therapeutic proteins. We are also a global driving force in the discovery and development of breakthrough and innovative science-driven solutions to treat serious or life-threatening diseases. Our strength lies in the powerful synergy of our people, our solutions, our technologies and our commitment to being the best.

Our Mission

Feldan Discovers, Develops, Manufactures and Markets Innovative science-driven biopharmaceutical solutions that meet the demands of the Research and Therapeutic Protein industries.

Our Commitment

Consistent business excellence, day after day by committing ourselves to high standards of integrity in contributing to the best interests of our customers, our employees and our communities, and by seeking significant returns for our stockholders, based on the continual pursuit of scientific and operational excellence.

WE ARE ACCOUNTABLE TO FUTURE GENERATION

With a global company come global responsibilities. At Feldan, we are deeply committed to a globally sustainable business to create value for the 21st century world. We constantly challenge ourselves to find new and better ways of interacting with our world. Our focus is not on doing the least harm but on doing the best for our planet. It confronts us with the need to manage our resources wisely, to promote the health and safety of our employees and communities, to challenge the way we work, to better select the tools we work with and to ensure that our products and services add real value. At Feldan, we share in the responsibility of seeing to the future. For us, this means taking care of today while planning for tomorrow.

WE ARE BUILT BY **TALENTED PEOPLE**

Whatever the nature of the challenge, it is passionate, committed and empowered people who ultimately make the difference. Every day our skilled employees make us what we are – a leading force in the life science industry with a culture that pays tribute to exceptional people. Their unique mix of cultures, nationalities and languages sharpens our competitive edge in a demanding global marketplace. Their diverse and complementary talents govern our ability to execute our business strategy and maximize value. To these people, Feldan offers challenge, opportunity, recognition and an exciting place to work and grow. We encourage them to lead by example and to commit to the highest standards. In return, we continually renew our commitment to being an employer of choice and to giving our people the skills, knowledge and leadership they require to thrive. At Feldan, our success has always been – and will always be – a reflection of our employees' achievements.

WE ARE FOCUSED ON BEING THE BEST

Being the best is a journey, not a destination. Day after day we aim to be the leaders in everything we do. Our value-based management culture provides a rigorous, accountability-based process for identifying and seizing opportunities to create value across its many dimensions. This continuous improvement helps us offer more and use less as we apply this disciplined approach to improve every aspect of our business.

WE ARE

INNOVATION DRIVEN

Feldan constantly thrives to learn and seek out the insights and tools we need to stay at the leading edge of our industry. Our company has built enduring capacities for breakthrough innovations and has found ways to circumvent the years, if not decades, it can take to move from discovery to commercialization of a new technology. We have also developed reliable and innovative operating systems to manage the associated risks and continuously enhance our ability to solve the complex scientific and business process problems that would otherwise place limits on our ability to envisage, and then create sustainable value for the next generation in our industry, a key indicator of corporate sustainability.
